

COMPANY PROFILE · 2026

Building businesses across borders.

An international investment group, headquartered
in Muscat.

One group. Many markets. A single standard.

Yazdan Invest is an international investment group headquartered in Muscat, Sultanate of Oman. We create, finance and operate businesses — from launching companies and production lines to international trade, design and technology.

We back our businesses with our own capital and hold each of them to the same standard: work done properly, for the long term. Around our base in Oman we have built a network of representatives, agents and partners across the Gulf, Asia, Europe and Africa.

CONTINENTS

One group, five ways we create value.

-
- | | | |
|----|-------------------------|---|
| 01 | Invest | We invest our own capital in our own projects and in businesses we build. |
| 02 | Launch | We take businesses and production lines from idea to opening day — and beyond. |
| 03 | Trade | We source high-demand products and sell them through an international network of traders. |
| 04 | Design | We create jewellery and fragrance collections with designers from around the world. |
| 05 | Build technology | We develop applications and automate production lines with artificial intelligence. |
-

Nine departments. One group.

GOVERNMENT SERVICES & PRO

Oman Register

Company formation and every government transaction around it — commercial registration, licences, ministry approvals and the follow-up with government offices, handled for you from start to finish.

INTERNATIONAL TRADE & SOURCING

Trading Department

A research-led trading desk: we identify high-demand products, source them through our agents in China and suppliers in India and beyond, and sell through a network of 290+ traders — with strong reach in Saudi Arabia and the Arab region, and growing business in Europe and Africa. Focus: food products, building materials and industrial equipment.

SOFTWARE, APPS & AUTOMATION

IT & AI

Our technology team develops applications for clients and our own products, and works on automating production lines and operations with artificial intelligence.

INVESTMENT, RESIDENCY & EDUCATION

Visa & Immigration

We bring the investment opportunities found by our research team to investors worldwide, and handle residency and visas in the destination country — for investors and for companies hiring foreign staff. For families moving with them, we also arrange school and university admissions.

COMING SOON

Real Estate & Consulting

Property advisory and investment consulting for investors and companies — from finding the right property to structuring the investment, in Oman and abroad.

BUSINESS & PRODUCTION LAUNCH

Business Accelerator

We launch businesses and production lines in Oman and in other countries — from the idea and market research to permits, premises, equipment, hiring and opening day. We already manage several production lines in Oman, and after launch we can run the business for you or sell what it makes through our trading network.

JEWELLERY, FRAGRANCE & GOLD

Yazdan Jewellery

A design house working with renowned jewellery and fragrance designers from around the world — including designers in France — to create distinctive, one-of-a-kind pieces, with a gold-supply partnership being set up in Italy. Our collections are sold through our own gold shops, including our branch in Oman.

RECRUITMENT

Hire Talent

Finding specialist talent for businesses with AI-driven methods and flexible hiring structures — from a single role to a complete team.

GIVING BACK

Yazdan Charity

We give part of our income to approved, licensed charities around the world, supporting causes that help people and communities.

Headquartered in Oman. Working worldwide.

Our headquarters and base are in Muscat. Around it we have built a network of representatives, agents, partners and projects across four regions.

INDUSTRY & PRODUCTION · OMAN

Production lines in Oman

We manage several production lines in Oman — from setup and equipment to staffing and day-to-day operations.

TOURISM & HOSPITALITY · SPAIN

Tourism projects in Spain

Tourism and hospitality projects we are launching in Spain with our local partners.

INTERNATIONAL TRADE · GULF · ASIA · EUROPE · AFRICA

International trade network

A network of 290+ traders, with agents in China, supply contracts in India and active trade with Saudi Arabia, the Gulf, Europe and Africa.

JEWELLERY & FRAGRANCE · FRANCE · ITALY · OMAN

Jewellery & fragrance design with France

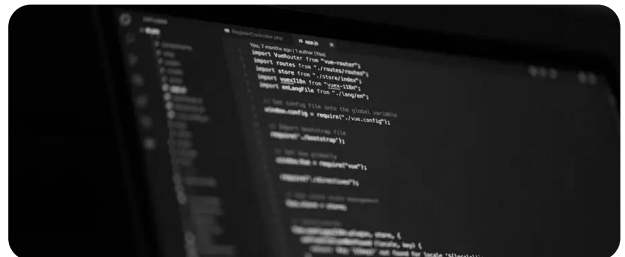

Collections designed with jewellery and fragrance designers in France for Yazdan Jewellery.

RESEARCH & INVESTMENT · THAILAND

Research & investment in Thailand

Research and investment opportunities we are evaluating in Thailand.

TECHNOLOGY & AI · OMAN

Applications & automation

Our IT & AI team builds applications — for clients and our own products — and automates production lines and operations.

From a single service to an international group.

2024

Founded in Muscat

Yazdan Trading & Investment was founded in Muscat. Our first business, Oman Register, guided entrepreneurs and investors from abroad through setting up their companies in Oman.

2025

Into international trade

We built a research-led trading desk and a network of traders across Saudi Arabia and the Gulf, sourcing through agents in China and suppliers in India — food products, building materials, industrial equipment and consumer goods.

2026

One group, many markets

Our businesses came together as Yazdan Invest, with a representative in Dubai, representatives and agents in China, and partners in Spain and the Netherlands.

2026

Industry, design and technology

We manage several production lines in Oman, work with jewellery and fragrance designers in France, and our IT & AI team builds applications and production-line automation.

2026

New frontiers

Tourism projects in development in Spain, research and investment projects under study in Thailand, a gold-supply partnership with Italy, raw-material contracts in India and our first steps into African markets.

Next

What comes next

More markets, more partners and more projects of our own — built with our own capital and for the long term.

Principles, not slogans.

01

Do it properly

Every licence, contract and invoice done right the first time. Shortcuts cost more later.

02

Long-term thinking

We build relationships and companies to last — with clients, partners, suppliers and our team.

03

Clarity

Clear prices, clear steps and clear communication. People should always know where they stand.

04

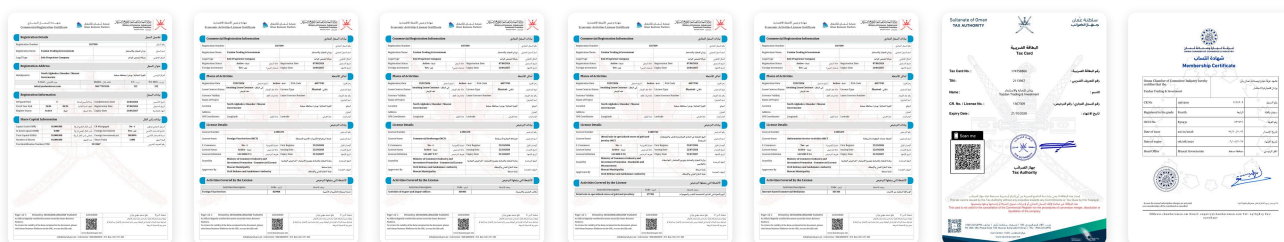

Global by design

Our base is Oman; our partners, suppliers, clients and projects are in the Gulf, Asia, Europe and Africa.

Registered and licensed in the Sultanate of Oman.
